OCTOBER-DESIGN ADDS NEW STREAMING MEDIA SERVER FOR HOSTED CLIENTS

Cleveland, Ohio (February 10, 2010) OCTOBER-DESIGN INC. an integrated marketing and technology firm, announces the addition of a new streaming media server for delivering video and audio to web users.

Adding to October-Design's technology infrastructure of servers, routers and switches, is the new Apple XServer which represents the state-of-art platform for delivering content to web users and mobile devices. Streaming Media allows users to receive multi-media without having to download files to their PC or handheld device. Webisodes, Video Blogs, Pod Casting and Audio Streams are applications that require an enterprise class server including the Apple XServer 10.6.

October-Design is a full service, integrated marketing firm established in Cleveland, Ohio in 1999. October-Design hosts and manages clients' web sites and applications through an array of servers located between the West coast and Midwest.
